The Mansion

The Mansion is a smart choice for maintenance-free living and a great value as well, but without the cookie-cutter approach to townhome design. Each home will have a unique exterior and several floor plans are available to suit your needs. Options include 1- or 2-level floor plans, 1- or 2-car garages, and various configurations for bedrooms and living areas.

These homes enjoy prime position at the edge of a pocket park and are also near trails for walking and biking. A basement is not available on this home.
See reverse side for floor plans.

*Options not always included in standard price.
Plans are subject to change.*
